TRACE ELEMENT TESTING

Trace Element testing is carried out by analysing liver samples collected from livestock at the time of culling

1. Please complete and send this form to the meat processing plant with your transport carrier. Please ensure the owner's name exactly matches what is on the kill sheet information to ensure accurate collection
2. You or your veterinarian should ideally fax/email the completed form at least 24-48 hrs prior to the animals being sent to the meat processing plant to help ensure samples are collected
3. Liver samples will be collected and sent to SVS Laboratories Ltd for analysis. Results will be sent to your nominated veterinary clinic
